4/1/90

Hatonn present in the Light of Radiance. Good-morning.

Dharma, the computer is full of gremlins this day. Take precautions of saving material frequently lest we lose large portions. Also, clear your own space more frequently this morning as the frequencies have been changed. And lastly, no, do not go to the public meeting this evening--you are targeted. Oberli, be cautious this day and keep your shield intact this evening, for you are singled out for attack. Just take proper care, please.

EARTHQUAKES

Myriads of inquiries have poured into these higher realms this past 24 hours regarding California, earthquakes. Yes, there has been a swarm of some 75 quakes in a fairly localized area of the central California coastline. The San Andreas is getting ready for her big show. And no, I will not tell you more specifically. I have asked you ones to act rationally, timely, without panic and-whether you or I like it or not--it will be in ignorance of exactness.

More is the fact that man has changed no "probabilities" in the prophecies--further, the entire country is planning on the excitement of a few tremendous quakes in all portions of your country. Also plans are being structured to insure that you have great hurricanes. The weather "ex-sperts" are now laying the lie that the hurricanes are right now being set up in South Africa which will outdo Hugo. So be it. Man desires excitement and the proving of his own projections--how can I stress it firmly enough--MAN DOES NOT DESIRE TO CHANGE HIS DESTINY! TREMENDOUS ENERGY IS BEING Poured FORTH FROM HUMAN MASSES TO INTENSIFY DESTRUCTION FROM EVERY ACTIVITY--NOT LESSEN OR VANQUISH THE PERCEIVED MONSTER.

Of course the swarm of quakes have meaning--great meaning, and we have gone over it and over it. I remind you to keep your eyes on the whole of the ring of fire. Further, keep your eyes on "tornado alley" and the Mississippi deltas. You cannot have a magnetic pole shift without disruptions. I did not say "pole" shift, I said "magnetic pole shift". More so, you cannot have cosmospheres shooting vibration beams at your fault lines or underground daily detonations of beam and atomic devices without eventual devastation. There is nothing new--just you ones who desire to walk the brink of disaster continue to want the "minute". You will not get it, brothers--at least not from this source. You have free-will and you may be and do anywhere and anything you so choose. If you wait for perfection--you will be waiting, most

likely, in the realms of God where you will find perfection of timing and knowledge--not upon earth plane. A beautiful home shall become far less important once ye have walked in the rubble of broken and burned material possessions. All things unto their own lessons.

APRIL IS NEARLY OVER--

WHERE IS THAT WORLD WAR?

You ask of the wrong energy--I have not given the above prediction. But all things are possible and April is not finished. I can tell you that a very large war was laid to the blueprint by your major powers that be. What will come of it depends upon the gleaning of extensions for payments and the coming under control of a few major players.

An important note is that Japan is springing back from the bombs thrust into her economic market system. It was to have fallen--it is coming back stronger. During this current two month period the danger of war is the greatest crisis of your twentieth century. You are absorbed with what could be considered "Pre-war" preparation and crisis. Were the similar signs present prior to this age segment, you would already be at total war.

You will note things such as the pull-in, somewhat, of the drug cartels in Colombia. This is just an example--the little nations are efforting at giving Big Brother U.S. no option of all-out war and yes, the Israeli Zionists are up to their eyes in your war plans. The ground work is in place and the shifting and dancing are in full swing in your Middle East. The price game on petroleum in the OPEC sector should give you insight as to what is happening. A very large confrontation is lining up over debts and collateral.

Whether or not you like of it, a new Ivan the Terrible is implicitly coming to power in Moscow--along with the mightiest military machine on your planet under the control of Ivan, despite all the other economic and related problems of the Soviet Empire.

At present, the Anglo-Americans must choose between the great financial tidal wave which will sweep aside entire structures of financial and political situations, and an attempt which might not succeed to impose a fascist regime by fiat upon financial markets as a means of preventing the collapse from wiping out these structures.

LET'S CHECK A LITTLE CURRENT EVENTS KNOWLEDGE

How many of you know that Japan is the largest investor in the United States? Oops! Wrong! Now let us have a bit of a look at what really is. Japan is way down at fourth place in the buying up of America. Third on the list is "poor" little Australia with its new plastic currency on trial. Second is your wondrous British colony to the north, Canada, and First on the list of property and business ownership of America is yes, you guessed it--your old friendly controller and enemy--Great Britain. Why do you think Mr. Bush met with Mrs. Thatcher last week to discuss international strategy? Oh yes they did! It just hardly flickered in the news. Perhaps wars for independence make strange bed-fellows? Further, the same dandy fellow who is in the rewriting of your U.S. Constitution is now writing the basic constitution for the newly freed Eastern Bloc nations--based soundly on English structure.

Your courts have long since given up justice based on your Constitution but rather on the English merchant law! How many of you even know what that term means? Well, it is enough to hang your entire country for it voids Constitutional law in favor of "dictator" laws. My word, how can we cover all these subjects adequately? Well, we shall simply have to do the best we can and pray Dharma's fingers hold strong. We already have tendonitis and cysts building on the palms and wrists.

WHAT DO YOU THINK IS CURRENTLY GOING ON IN PANAMA?

WRONG! The unpublicized horror continues. On March 9th the U.S. troops in Panama City staged the largest "search and destroy" operation since Bush ordered the illegal invasion of Panama on Dec. 20. Beginning at break of dawn, hundreds of infantry troops, supported by helicopters and armored personnel carriers, were deployed to attack and seize the area known as Curundu. Well, this followed the previous week's bombing of a nightclub where a U.S. Sergeant was killed and several others were wounded. (The horror is that it was a staged attack by your own forces to allow show of strength and do a little terrorizing.)

There were hundreds of casualties and more hundreds of detainees. The latter were kept in open-air pens with hands bound behind their backs without food and/or water. It is important that you understand that the intent is to remove any and all resistance to U.S. control--total control. In the words of your own military "ruler", Gen. Carl Stiner, the operational commander of

the invasion forces, "The U.S. will not pull out until its troops *destroy the leadership and infrastructure of any dissident groups. We've got to ensure that we root out these elements that are capable of disrupting the government!*"

LET'S TALK OF PANAMA AFTERMATH OF THAT WONDROUS INVASION

The above operation only continues the repression against a population which is increasingly furious with the occupation regime.

The first week of April saw the U.S. occupation government in Panama using fascist mobs identical to the Ayatollah Khomeini's, to intimidate its political opponents.

On March 5, a violent mob threatened to kill Cecillio Simone, Dean of the School of Public Administration of the University of Panama, and took over his office. Dean Simon is well known in Panama and abroad for his outspoken opposition to the Dec. 20 U.S. invasion of Panama, and to the drug-linked regime subsequently installed by the Bush administration.

On March 3 a mob attempted to break into the residence of *Peru's Ambassador* to Panama, to take officials of the former government of General Noriega as hostages. The former officials had been granted diplomatic asylum by Peru. The mob attacked the residence with rocks, sticks, and home-made bombs, causing a fire that all but destroyed the building. Panama's Vice President, Arias Calderon, openly endorsed the mob's actions, and said that the government would not grant safe-conduct out of the country to the former officials--in other words, setting up death authorization.

Interestingly enough--the Israeli Massad trained El SaNador death squads have made an openly visible appearance. Following their open integration the bodies of five Panamanians were found, shot through the head, hands tied behind their backs. And what of Noreiga? How much do you hear on your daily squawk boxes about him? Is it possible he will end up in nice secure Israeli protection as had Jim Jones? Well, no need to while he is in the U.S. with all those agreements. The only thing is, I wouldn't trust a governmental agreement as far as I could throw a pebble.

The March 9th display was even more blatant and involved things such as soldiers boarding buses and arresting all the young black males they found--claiming they "looked like criminals".

Thousands of people were left homeless by the super-freedom fighters for

justice in the December invasion. The homeless are taking over empty land or unoccupied buildings just to have shelter. The refugee camps are inhuman with conditions volatile for a pandemic epidemic of disease which will be introduced intentionally if it does not take its own measured path.

Early March saw refugees breaking out of the camps in El Chorrillo. They then took up residence in a half-finished building in their old neighborhood. When U.S. troops, claiming the refugees were "invading" private property, tried to evict them from 'The House of Stone,' so called because it stands on the birthplace of former world champion boxer Roberto "Hands of Stone" Duran, the refugees kicked the soldiers out.

Then on March 6, the U.S.-installed regime's Vice Pefeil-de-1A, Ricardo Arias Calderone, ordered police to evict 5,000 families who had taken over land. These families have no place to go and are therefore now moved into a public plaza where the uprising is classified as a "permanent" demonstration.

Another thing you won't hear, dear friends, is that even people who had been taken in by Bush's propaganda that the invasion was "a liberation" are now seeing the facts and see that it was a deliberate act to collapse the economy. Further--the people all but disarmed themselves when the government bought the private guns and weapons.

Care to hear what your man in overall charge of the continuing U.S. military operations in Panama is called? MAD MAX THURMAN! Speaks for itself. Where is all that "aid"?

Despite much-publicized promises of aid to repair billions of dollars in damage caused by the invasion and the preceding 30 months of U.S. economic warfare, Bush has not sent any money. "We haven't received anything, not even a buck," said U.S.-installed President Guillermo Endara. "The economy is worse than it was under Noriega," he said. He further warned that the crisis is at explosive status and worsening daily.

Interesting note: Congress did approve \$42 million in "emergency relief" for Panama on Feb. 7. It was not until the week of March 10 that anyone showed up with anything. A month after the approval of appropriation, the American proconsul for Panama, U.S. Ambassador Deane Hinton, showed up, not with money or a check, but with papers authorizing the release of the first installment of that money, \$25 million. Of that, only \$13 million is to rebuild Chorrillo; \$7 million is for emergency jobs programs for 3,000 people, to be administered by "civic clubs" of the oligarchy (a government in which a small group exercises control especially for corrupt and selfish purposes--definition courtesy of Dharma who trusts not my English).

SO WHERE IS HENRY KISSINGER?

Making lots of money on Panama's plight, of course. Lots of cronies of the Bush administration are making money on the fiasco. The same week as above, the puppet Endara government announced a \$1 million contract to the Washington law firm of Arnold & Porter, which employs William D. Rogers (who just happens to be Henry Kissinger's lawyer), to lobby for the return of the money stolen from Panama under the sanctions. It was Rogers who designed the, economic sanctions in the first place, and Arnold and Porter has been milking them for profit ever since. The firm got paid, from the same funds, during the past two years to act as representative of the fictitious "Panamanian government" of Eric Delvalle, based in Coconut Grove, Florida.

Oh, yes, by the way--this was also "a move to keep the Soviets out of Central and South America," remember? Well, on March 7, 1990 Russia and Panama signed a first-ever trade agreement!

IS KISSINGER EVERYWHERE?

YES! Yes, he is. Note the ominous developments which are taking shape in the Middle East, among them the redeployment of military forces of the Warsaw Pact and NATO, away from Central Europe into the Southern European region facing the Middle East petroleum basin. And Israel's unstable (planned) government, the U.S. hostage crisis (what's new?) and the continuing cover-up of Syrian-backed terrorism are leading up to "letting it rip" in the Middle East which allows a new crisis to occur, modeled nicely on the 1973 war and the oil price crisis of that period--does anyone remember? This scenario would allow the rise of the price of petroleum, internationally, to a figure of around \$35 per barrel. How many of you can remember the "oil price hoax which was rigged in 1973-74", instancing the Arab-Israeli war and the role of Henry Kissinger's famous "shuttle diplomacy" in igniting that war--on behalf of his masters in London, around the Royal Institute of International Affairs?

You better wake up and look out of your fox-holes. This could very well be another bloody show in the Middle East with a lot of dead Arabs and Israelis, all for the greater glory of the forces behind London's Petrol Six and the friends of Henry Kissinger.

By the way, Dharma, keep your attention focused---Mr.Kissinger is figuring ways to shut you up, chela. The "you know what" has hit the fan and you have been added to a list which already represents ones incarcerated on false

charges through illegal courts of injustice. To Little Crow who shared an old Lakota proverb with Dharma this week--Dharma has tried your first advice and will now try "barking at the moon".

CONTROL OF OIL

Things don't change greatly in public view and oil is still a big, big lever. Why would you need a big Mideast conflict? The number of answers to that question boggles the mind--for one thing it is time to do something with the Saudi-Arabians and their long-term collateral theft perpetrated by the bankers, etc. But then, they just got nuclear capable missiles from China, didn't they? Oh well, surely they wouldn't use them--would they? Brothers, when there is nothing left to lose, everything will be used!

What could disrupt West European progress toward the economic reconstruction of Eastern Europe, and the requisite rail infrastructure and other industrial investment required for that? Short of outright direct military action in Central Europe from Warsaw Pact or NATO forces, one of the only effective weapons remaining to the powerful Anglo-American financial circles opposed to an economically expanding Central Europe is the economic and financial weapon used by the Anglo-American financial establishment in the past century, their strategic control of world oil. The obvious question is whether certain circles are quietly preparing to detonate a new "oil shock" which would sabotage European and Japanese industrial investment potentials as it did in the 70's. Well, it is risky isn't it? If the U.S. gets nasty the Japanese simply pull out their shoring up and purchasing of U.S. debt and you get it either way.

The condition of the world petroleum sector today suggests some ominous parallels with the 1970's--and please note the springing up of B.P. (British Petroleum) stations the across world. Between now and the next few years, the price of North Sea Brent oil, the most widely traded—"bench-mark" oil today, will rise steadily to the range of \$35/barrel. This would show an increase of 75% in the cost of the world's most important primary energy source. That would also mean sharp increases in costs of every area of economic life--transportation, electricity generation, agricultural fertilizer. Dharma, I think our readers would like a brief dissertation regarding Zapata Oil whose ex-CEO was George Bush and you ones look at the possibilities present for all sorts of uncanny activities. Even bankruptcy doesn't mean what it once did--it is now simply a tool for massive shifting without need for public discovery. We will talk of this next.

How have you gone from feast to famine so rapidly? The U.S., the world's largest oil-consuming economy, has allowed itself to become import-

dependent on foreign oil for its main energy source. You import over 9 million barrels of oil a month. Further, each imported barrel bears a subsidy--yes, your U.S. boys subsidize imported oil to the oil corporations. Even more important, however, is that imports are running at more than 50 percent of the total oil usage. Add to this a dramatic fall in U.S. oil production and you have part of the recipe for "Oil Shock"--again.

Since the end of 1985, domestic U.S. oil production has plunged by more than 1.3 million barrels/day, as numbers of medium-sized independent producers have been eliminated. Washington, under Mr. George "Big Oil" Bush, has allowed the international multitis to grab "market share" at the expense of domestic interests and national energy security.

U.S. oil imports have been soaring from 3.2 million bpd in 1985 to 9 million bpd in January 1990. The two major sources for this oil are Saudi Arabia and Iraq. Yes, the same Iraq who just purchased the biggest known "gun" in the world--the same Iraq who uses these types of guns to fire missiles loaded with chemicals and bacteriological payloads.

WELL ORCHESTRATED

How do you make a cut-down of domestic oil recovery look reasonable? You take away all incentives for domestic production and up the anti on subsidized imports. Now I knew you knew that.

Since the Tax Reform Act of 1986, traditional oil drilling-tax incentives for U.S. producers have been slashed. Part of that was caused by the U.S. bringing the big Texas producers to their knees for attempting a new money system via secession. Remember the old Texas/U.S. "treaty" which must be ratified each year? Aha! you little chelas are getting better with your memory work.

Last year (1989), the domestic oil output suffered its biggest one-year decline in history, and produced the lowest volume in some quarter century.

Meanwhile back on the foreign ranches, the output of another of the world's largest oil producers, the Soviet Union, is also declining markedly, and exports are dropping. What have we here? In January the Soviets were forced to cut hard currency exports to the West by 250,000 bpd. Another 500,000 bpd exports were cut to Eastern Europe. This Soviet surprise cut has forced Czechoslovakia, Poland, and others onto the world market, scrambling for OPEC oil.

As a sidelight, please. Look at what this does to Czechoslovakia pollution

destruction! The pollution in parts of Czechoslovakia from the burning of Sulphur laden "brown coal" in the electric plants is killing off the population along with some thousands and thousands of acres of forests which are already dead, dead, dead--but the pollution is so bad you can't even see the fallen trees. There is no way to fire those electric plants if oil is unobtainable--the country is forced to continue the poisoning.

A SIDE-LOOK AT ZAPATA

OIL

This was the best-laid drug operation around as the drug influx of planned control of "you the people" was begun. Now just look at the credentials.

Zapata Corp. is an international company which operates a fleet of offshore drilling rigs, conducts commercial fishing and related processing, and explores for and produces oil and natural gas. They also hold a 34.7% interest in Zapata Gulf Marine Corp., which happens to operate a fleet of marine service and supply vessels.

Here is an interesting point regarding their "fishing boats".

The boats don't, somehow, really utilize fish as fish--they trade in something known as "fish meal", a powdered substance of white to gray color.

The oil rigs are offshore, of course. The fishing fleet is of a good number of boats and a large number of planes. The planes supposedly locate the fish schools. But oops, these well-to-do companies which were cleaning up in billions of dollars are now unable to make their interest payments to holders of their subordinated debentures. And now, poor things, are having to work deals" with the bankers. Well, I would guess that the import of white powder is dropping as production in the U.S. picks up and the war on drugs moves along--there will obviously be a decrease in demand for "fishmeal". The company is at present, "restructuring and studying alternatives." So be it.

CONGRESS IN ACTION--

WORLD SHOULD SLEEP WELL

Let us talk about Ethiopia as an example of wondrous action. People starving cannot await political reforms for very long and now your government (Members of the House Select Committee on Hunger) are having hearings about new drought caused famine set to strike the nation of Ethiopia for the third time in a decade. The people forgot to stop starving during those "good"

interim periods.

Harvests were poor in the northern provinces because of low rainfalls during August of 1989. This time the number of people at risk could' exceed 5 million, it is stated.

Some 750,000 metric tons of new food aid are needed to stem the famine in the affected areas, 450,000 of that immediately or hundreds of thousands will have already died by April, 1990.

Only 28,000 tons of U.S. food has been delivered since 111,000 tons was authorized for emergency shipment in December. Dear ones, even if this genocide was not planned, there is no grain in your silos nor milk in your reserves.

Currently "reported in storage" in Ethiopia is 89,000 tons of Western food, but half of that has been burned during an escalation of the 10-year civil war between the Ethiopian government and the liberation movements beginning in February. Just on the minimum projection the UN Food and Agriculture Organization (FAO) estimated in February that Ethiopia would require 800,000 more tons of food aid this year than it received in 1989.

AND WHO CONTINUES TO KID WHOM?

The principal witnesses stress the escalating civil warfare, supplied largely through Soviet weapons, as the main obstacle to mounting an effective international relief effort. You do blame an awfully large number of your own evil on the Soviets.

All ones pronounced pious pleas to quit killing the children and end the war, etc. What of the drought? Who will end the drought? Oh yes, it can be ended--it is not God's drought--it is pure and simple control of weather by technical apparatus--which, by the way, can also produce floods, especially in lands stripped bare and dried to the point of non-absorption of water.

Now for the sick humor of the day, from a governmental summary following projected thoughts, "No doubt the people of Ethiopia, as well as their government, would accept real solutions to the economic breakdown which is the cause of the genocide being inflicted on all of Africa. They would agree that water management projects are required to stop droughts, rail, water, and highway systems to transport goods, and that power plants and vital infrastructure, as well as technological assistance, are needed. Any

government which rejected such aid would not last long, liberation movements or no. Real solutions must reflect a 'nation-building policy'."

WHAT OF YOUR OWN BACK YARD

OF IGNORANCE AND EVIL?

Yes, we are going to get to that Journal on "The Church" and we are going to describe the very depths of incredible and indescribable horror of various facets of the churches which you believed were the backbone of Godliness. We are going to tell you exactly that which happens to little girls who error in "marrying" Christ in the Holy Church and the terror and horror within the walls of the cloistered monasteries. You are in for a gut-wrenching eye/ear opener. Satan's biggest churches are the churches themselves. They slop over into every crevasse of your society.

Orders and foundations spring up and finance activities which have no way to know of the input until it is too late to economically pull away from the controllers. This is why the Phoenix Institute will be monitored like a condor egg ready to hatch. Evil comes in all ways and faces.

The best-organized Satanist forces currently operating in your United States include the *Lucis Trust*. This is the leading, putatively respectable, United Nations-accredited Satan cult--it worships Lucifer openly--operating out of the UN in New York and out of the Episcopal Cathedral of St. John the Divine, also in New York.

The Lucis Trust, which runs the only religious chapel at the United Nations headquarters--namely, the *Temple of Understanding*--was originally founded in London in 1922 as the *Lucifer Trust*, now changed to *Lucis*, to make the nature of the organization less openly conspicuous.

Hold to your seats now: leading sponsors of the Lucis Trust include the following prominent figures and institutions:

Henry Clausen, former Supreme Grand Commander of the Supreme Council, 33rd Degree, Southern District Scottish Rite Freemasons, Norman Cousins, John D. Rockefeller IV, The Rockefeller Foundation, The Marshall Field family, Robert S. McNamara, Thomas Watson, Jr. (IBM, former U.S. ambassador to Moscow), The United Lodge of Theosophists of New York City, U. Alexis Johnson, (former U.S. ambassador to Thailand), and Rabbi Marc Tannenbaum, (American Jewish Committee), to name a few.

Prominent front organizations sponsored by the Lucis Trust include the

following: The Theosophical Order of Service (founded by Annie Besant in 1908), The Theosophical Society (founded by Helena P. Blavatsky in 1875), The United Nations Association, The World Wildlife Fund U.K., The Findhorn Foundation, Greenpeace, Green-peace USA, Amnesty International, The Nicholas Roerich Society (chief connection to Russian mysticism, spirituality), The Anthroposophs of Rudolf Steiner, The Rudolf Steiner school, UNESCO, UNICEF and The American Friends Service Committee.

Of course you didn't realize it, chelas, it is planned that you not know it. You are people of the lie for all your generations. Satan set up the operations and has acted heinously in the name of Christ and Godness.

I have a question sitting in front of this desk, from a beloved one, RBA, who inquires about the Old Testament "Lord" who caused the Israelites to literally slaughter their enemies including women, children, and animals. You want to know the truth of the Old Testament chronicles relating especially to the wrathful "Lord"? The most heinous lies of all. These are not of God and they have NEVER been of God! NEVER. The Laws of God and The Creation have never varied by even a hair's breadth. The commandments of life have never varied. Man wrote the books to enslave you and you all marched to the "drummers of Satan" quoting the Bible all the way! So much for the state of your world, and now this scribe and hundreds like her, are being murdered to stop the flow of truth. Well, it shall not be stopped! So be it.

Dharma, this is enough thought overload for an Express, please. I do wish only to acknowledge another thing or two and we will close this segment.

I wish to honor George Green's father who made his transition and transformation on the yesterday, April 18, 1990. We welcome this beloved brother into our midst and ask ease of grief for ye who remain to mourn his passing. I must tell you, however, that cremation is also a tool of evil. Cremation became the method of hiding murder, especially in the religious orders.

Ponder that method of ending placement of body. Once cremated, dear ones, there is nothing left to resurrect. I would always request a simple (the more simple, the better--without embalming) burial back into the Earth from which one is birthed-after at least a five day wait. You just never can tell what God might do! So be it and selah. Blessings upon the family of our dear ones and grant peace and God-speed unto the departing souls for their life has just begun! AHO!

George, I would give thee respite that you might go and make your reverence and personal assistance unto the ones remaining in his home-

placement. Blessings unto you son, for ye are faithful, but sometimes it is most comforting to bury your own dead. Let us not confuse "bury the dead" with the burying of loved ones--when the time can be spared--and we can spare of the time for that blessed man deserves reverence. So be it. I give thee peace within to allow an easy passage. Ye settled your communications a few weeks back and now the pain shall reap the reward of peace. AHO!

Thank you, Dharma, may we move to stand-by now, please.

In love and in the service of God, Christos and ye of my Brotherhood of Light--Salu!

I AM. HATONN OF LIGHT.
GOOD-DAY.

Dear Commander Hatonn:

In a January *Express* Journal there was a recommendation to attend the hypnosis classes of one, Gil Boyne, of Glendale California. Having considered the matter sufficiently, I went to Glendale on Monday, April 9th, and took the five day, 50-hour course and gained the certificate of a licensed hypnotist.

The purpose of this letter is to extend great thanks to you for bringing this to my attention and praising this gentleman's work.

Gil Boyne is truly one of the great teachers on planet Earth. It was a rare treat to hear the knowledge and wisdom of this powerful and gentle human being and to witness the teachings of Aton/Sananda in action, broadcast to the students present.

-The entire condition and activity of the subconscious mind, along with its import and power for God-ness and God-compelling, simple phrases so as to inspire and activate the human participants to care and share this wisdom in their future work and actions.

If you wish to print this praise of Gil Boyne in some future *Express* with the intent of encouraging others to partake of this feast of reason and delight of soul, I would be pleased. For I now understand the process of spirit more deeply than I ever have and am being more practical in evolutionary matters than I have ever been.

Coincidentally I happened to open "RAINBOW MASTERS" to page 97 and there Lord Lanto, of the third ray, gives a complete synopsis of what Gil Boyne is saying and doing in Glendale, California. *The Word does go forth!* My Eternal Gratefulness to The Creation, The Creator, The Word, and to the

Commander.

Ed Cleary
Leucadia, CA. 92024

Thank you, friend, for the way seems long and slow in attaining God-ness in man--but it is only because man has forgotten his God-ness within. Until the God-ness within is brought "without", he cannot come into understanding for he will continue to function at the mercy of the consciousness which is the lie indeed. I look forward to our walking together for very soon the time for that will *be* at hand.

In the service of the Divine Plan and within the Grace of Creator and within the Laws of The Creation, I honor you as brethren within the Lighted Brotherhood of Man. As you precious sleepy ones begin to realize the *magnitude* of the LIE which has imprisoned you--so shall ye come into freedom--for it will only be through the mind (the subconscious mind) that ye shall change of this planet and we, too, give great appreciation and honor to Mark Gilboyne and his beloved Anne. SALU.
